LED Autolamps Boat Trailer Harness System

Functional, Long Lasting Quality, Value for Money
Innovated Harness System

The key to this system is its ease of fitting. Wiring of a trailer will be completed faster, which is perfect for trailer manufacturers, DIY, or non-skilled fitters, saving time and money. No cutting, no soldering, no taping, and a professional finish.

Flexibility

The system consists of individual cables for box trailers to large tandem trailers with cable lengths up to 8 metres and widths up to 2.1 metres. Boat trailer cable lengths available up to 12 metres. All cables have 2 core accessory plugs that enable licence and marker lamps to be added if required.

Cable and Plugs

The Cables and plugs are specially designed with tinned copper terminals, unique sealing plug rings, and have waterproof grease added for extra protection. All Cables and Plug sockets are IP67 rated, ensuring watertight fully submersible connection.
